

November 2018 – Stairway Partners Releases Educational Videos for Public Television in Collaboration with Success Files and Education Alliance, LLC

We are pleased to announce that Stairway Partners, in collaboration with Success Files and Education Alliance, LLC, has produced a series of educational videos. These videos will be distributed nationally through public television stations and locally in Illinois, Wisconsin and Minnesota on major news networks.

The videos highlight a number of important investment topics that we believe are critical to investors' long-term success. Stairway Partners is dedicated to helping both institutions and individual investors understand how market returns can be harnessed to achieve their financial objectives. We believe that a disciplined process with well-defined objectives and a focus on long-term fundamental market factors can help investors avoid common behavioral mistakes, which often stand between them and their financial goals.

We invite you to view a six minute version of the video on our website at:
